FINS: Single 9.5" Futures glass fin

FINISH: Sanded or Gloss & Polish

DESCRIPTION: The Hammer Nose Rider is a classic, traditional single fin longboard. The plan shape features a wide 'Yater' outline, deep nose concave, and additional tail rocker. This board is an excellent paddler and wave catcher. It turns smooth and has plenty of glide when the board is set in trim. The rocker, width, and nose concave give the Hammer Nose Rider a lot support and very stable feel on the nose.

All Hammersurf surfboards are made with only the highest quality resin, fiberglass, and foam available. All boards are handmade in the Pacific Northwest USA by Cascade Performance Fiberglass, building fine surfboards since 1972. WWW.HAMMERSURF.COM (541 478-3441)
